REASON FOR ALLOWANCE

Page 2

1. Breese at al discloses a propeller shaft for a vehicle comprising an elongated hollow cylindrical body and a reduced profile intermediate portion having a reduced diameter as compared to the body and defining two transition areas between the intermediate portion and the body. Kragtwijk discloses an energy absorbing unit comprising a tubular element with a transition area which extends radially inward into the hollow cylindrical body. Jaekel discloses a collapsible drive shaft made by a hydroforming process comprising a first end with splines including a transition area to allow collapsing of the shaft during a crash. Leslie is cited to show a related propeller shaft which is collapsible in the event of a crash. However, none of the references of record suggests a propeller shaft comprising a reduced profile intermediate portion along a length thereof and distanced from an end of the body, wherein at least part of the cylindrical body lies over the intermediate portion prior to receiving a sufficient axial load from a crash, whereby neither transition area extends radially inwardly into the hollow cylindrical body in the manner defined in the instant claims 1, 8, 14 and in combination with other limitations of the claims. Therefore claims 2, 5-7, 9-13, 15-19, depending therefrom, are considered to be allowable.

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantz F. Jules whose telephone number is (571) 272-6681. The examiner can normally be reached on Monday-Thursday and every other Friday.

Art Unit: 3617

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph S. Morano can be reached on (571) 272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
